

## 1. Technical Parameters

Product Name	T-1350 Contour Cutting Plotter
Maximum Feeding Width	1350mm(53inch)
Cutting Width	1250mm(49inch)
Packaging Size/Weight	1600*305*370mm/3kg
Driver	High speed , big power step motor ,micro-step driver
Cutting Speed	0-800mm/s
Maximum Cutting Thickness	1 mm
Control Panel	11 silicon buttons , 2.4 inch high definition LCD screen English/Chinese Operation interface
Cutting Pressure	0-1000g (digital adjustable)
Motor	Stepper Motor
Main Board	32-bit ARM7 CPU, 128Mb memory, High-speed CACHE
Interface	USB/ U disk / Serial port
Machine Accuracy	0.025mm
Repeat Accuracy	≤0.025mm
Pen type	11.4mm diameter water-based, oil-based, atomic pen, poster pen
Interface	USB/Serial port/U disk
Software	Signmaster
Power Supply	220V/110V,50HZ
Power	Max110W
Working Temperature	5-35℃
Working Humidity	30%-70%(without condensation)

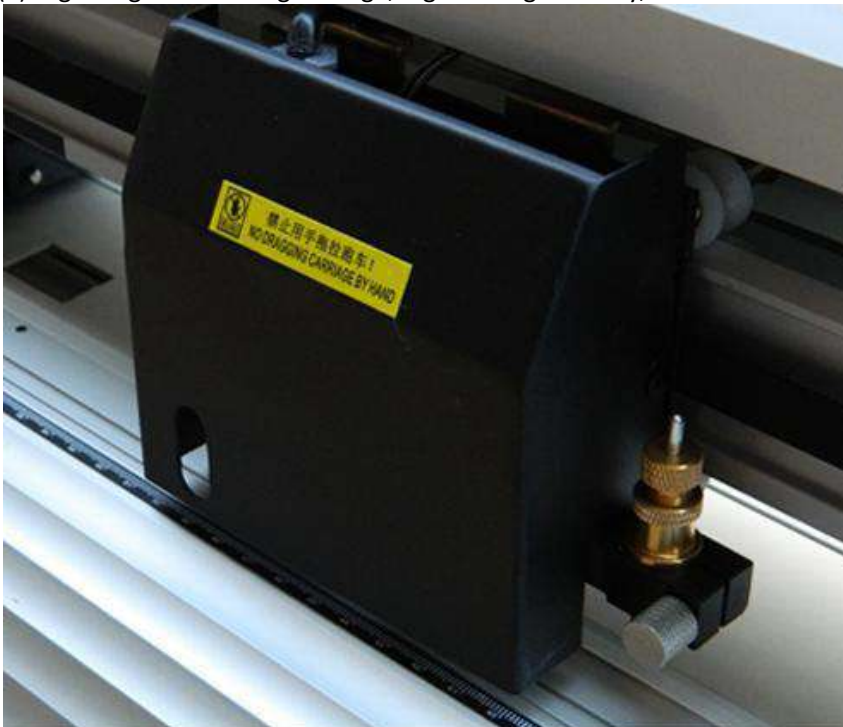

---

## 2. Product Features

(1) Large screen, eye-catching button

(2) High magnetic bearing carriage, high cutting accuracy, small words is not deformed.

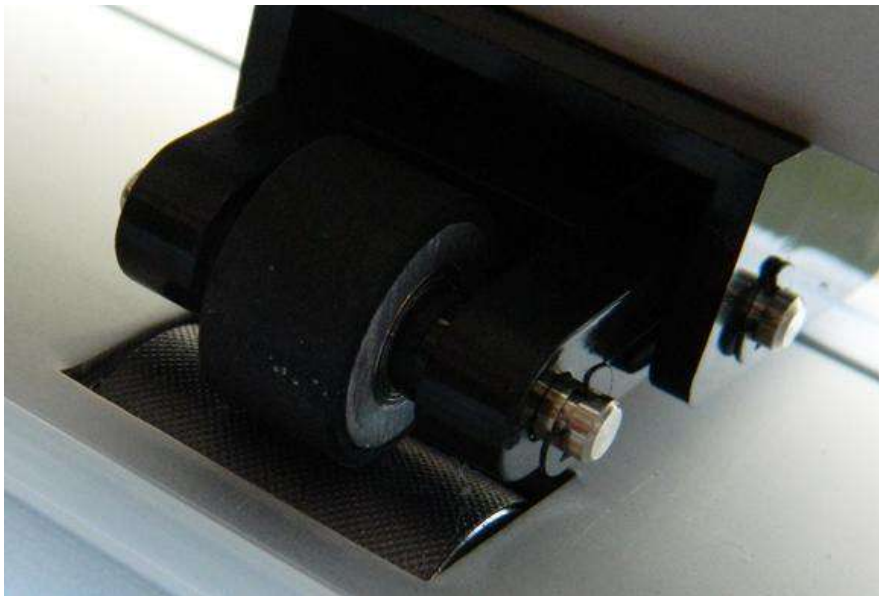

---

(3) Various interface methods.

(4) Steel thorn paper-moving.

(5) Double spring pressure roller
